

„Mobile Skills Academy” (MSA)<sup>®</sup>

**Construction of a mobile  
vocational education and training  
unit for men and women of all  
ages to gain qualifications**

## „Mobile Skills Academy” (MSA)®

### Construction of a mobile vocational education and training unit for men and women of all ages to gain qualifications

#### Project Title

- Mobile Skills Academy (MSA)®

#### What is MSA?

- **MSA** is a mobile, cost efficient, globally adaptable and self sufficient vocational education & training, retraining and training centre. MSA can be used for vocational education & training as well as for further qualifications with qualified teaching personnel in state-of-the-art classrooms.
- **MSA** is a cooperation between **business and education** linking expert knowledge from the business and educational sectors for the necessary school content and infrastructure for the school curriculum.

#### What are the strategies of MSA?

- **MSA** is a **required network** of teaching rooms, work rooms, function rooms, laboratories, virtual enterprises, accommodation, and healthcare stations for educators, trainees and work colleagues within the mobile units.
- **MSA connects the necessary infrastructures** (via employers) **with the vocational education & training didactic and methodology** (via the teaching personnel)
- **MSA** acts as a **practice-orientated bridge between the world of education and business**

#### What is the advantage of MSA?

- **MSA** - Projects are cost efficient, made-to-order, fast and ready-to-use and **can be implemented anywhere in the world.**

#### Who can install/use MSA?

- Businesses (Industries, Trade and Commerce, Banks, Insurance)
- Government (Federal, State, City)
- Institutions and Organisations, project developers and decision makers in work place qualification projects
- Institutions and Organisations which are involved in foreign aid for workers' qualifications.

**Which target groups will be addressed through the qualifications framework of MSA?**

- Men and women of all age groups will have the chance to gain qualifications (children, youths, adults, seniors citizens)
- Newly employed (Youths and adults) to learn a new job
- Youths and adults who need further qualifications in their work places
- Adults who need to be reeducated
- Men and women, who have to be reeducated and trained in their workplace
- Men and women who want to become skilled workers or technicians
- Unemployed people who need qualifications in order to enter the job market
- People who can pass on their knowledge or qualifications onto others
- Men and women of all ages with disabilities or learning difficulties who have to be educated

**Which subject areas can MSA address?**

- Anywhere, where a demand for vocational education & training exists:
  - Administration and Management
  - Health
  - Industry
  - Agriculture
  - Technology
  - Tourism

### Examples of how MSA can be used in the workfield

- **MSA** as work stations for apprenticeships
- **MSA for industry automation education:**
  - Drive systems & components
  - Automation technology
  - Logistics
- **MSA** as an apprenticeship school linked with an industrial enterprise
- **MSA** as vocational education & training and qualifications' projects with virtual enterprises in the banking and financial areas
- **MSA** as vocational education & training centres for education and reeducation of employees
  - New product training
  - Employee retraining
  - On-the-job training
- **MSA** as a training centre for „Train the Trainer“
- **MSA** as higher training centres for schools (learning in technical laboratories, special qualifications for vocational education & training trainers and trainees)
- **MSA** as product training centres for technical equipment (communication systems)

- **MSA** as a mobile vocational education & training centre for communities (mobile internet schools for seniors and others)
- **MSA** as product training centres:
  - Medical systems and products
  - Communication systems
- **MSA** for IT-Schools (Internet and programming)
- **MSA as school centres for development aid** (after catastrophes, implementation of new jobs, teaching personnel qualifications)
- **MSA** as mobile certification centres
- **MSA** as mobile Call-Centres

**Project Content**

- Project planning
- Project organisation
- Project implementation
- Project evaluation

**Project Duration**

- Project planning and construction: 6 Months
- Project duration: individual

**KIST experts cover the following focal areas of Human Resources Development:**

- Technical and Vocational Education and Training
- Vocational Training Systems
- Train the Trainers
- Virtual Enterprises
- Curriculum Development
- Coaching and Teambuilding
- Information- and Communication Technologies and
- Lifelong Learning

**These services are being offered:**

- Project Appraisal
- Project Planning
- Project Implementation
- Project Evaluation and
- Planning and Organisation of workshops, conferences and trade shows

Within the framework of a customers commission KIST applies appropriate and up-to-date methodology geared towards achieving the goals.

This is a One-Page-Brief information. A complete project description is available upon request. Please contact us for details.
