Administrative and Business
Professions in a country“**

Vocational Training and Technical Education

„Promotion of simulation-based practical Training for Commercial, Administrative and Business Professions in a country“

Project Title • Establishment of a country-wide network of Practice Firms in a country within the International Framework.

Objective • Establishment of a job-oriented training network for commercial, administrative and business training in a country, based on the needs of a western market economy (European integration)
• The training network will be implemented as a Practice Firm Network.

Strategy • The project will utilise existing resources, both capital and human. Networking between the education and the business sectors will render a relevant contribution towards employment and economic development.

Content

- Project planning
- Curriculum development with a special focus on practice firm implementation
- Establishment of practice firms in training institutions and establishment of a national Practice Firm Network
- Development or creation of a teacher training facility
- Development of a network for teacher training and actual training workshops
- Award of an internationally recognised certificate for teacher training graduates
- Development of language and communication skills to promote international networking
- Teachers undergoing training train their specific skills and competencies in the framework of a new Activity-Oriented Learning Culture (contributing to making lifelong learning a reality)
- Integration of blended-learning (combination of classroom training and e-learning)
- IT-training with international certification
- Integration of the Practice Firms into the International Framework

Practice Firm Network (european)

• Ongoing evaluation of Practice Firm activities as part of a process-oriented organisational development (using a customised monitoring system)

Implementation

- KIST-Consult with a team of internationally experienced training specialists

Duration

- This proposal: 18 Months
- Project total duration: 42 Months

Basic Information

A Practice Firm is a virtual company simulating business reality as closely as possible – a model of economic reality. This allows to implement action-oriented learning in business training. National and International networks of Practice Firms create realistic scenarios for covering all major business tasks functions. Several thousand Practice Firms in more than 50 countries allow all participants to establish a multitude of business relations – guided by the objectives of the training designed.

Training in Practice Firms equips future workers with in-depth business experience and provides an excellent opportunity to improve their social skills develop their key qualifications. Communication and relations with business associates from other cultural backgrounds are being experienced at an early stage.
